### DETROIT

# STREET AND AVENUE GUIDE

AND

# DIRECTORY OF HOUSEHOLDERS

Copyright 1921 by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed name of the occupant or householder. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets excepting Woodward avenue and Griswold street both sides of the street are included in one list, but owing to the large number of offices, etc., on these streets a division is necessary to make the information comprehensive. The profession, business, etc., of individuals and firms are only given at their respective place of business; to find the occupation of householders, refer to Alphabetical List of Names. Map furnished herewith gives explanation and outline of new numbers and system. The exact location of any street can be found by referring to the Index on Map.

The odd numbers appear on left-hand side of all streets.

In compliance with a City Ordinance which took effect January 1st, 1921, the streets and avenues in Detroit have been renumbered.

The Highland Park streets running East and West have not been renumbered within the boundaries of Highland Park, hence only the old numbers appear on these streets. The North and South streets of Highland Park and all of the streets of Hamtramck have been renumbered and the information as to both new and old numbers appears in this edition.

The renumbering applied also, with some few exceptions, in the villages about Detroit. Both old and new numbers are shown in the following Householders Guide where the streets and avenues have been renumbered. On such streets as have not been renumbered the old house numbers are shown in corresponding column.
